

CEILING HOOK INSTALLATION TOOL

Molded in **Natural Nylon 6/6**

Suspended ceiling hook installation tool is designed to install both type of hooks without using a ladder. The tool threads onto most standard extended poles for paint rollers. Simply thread the Micro Plastics' tool onto the threaded end of the paint roller extension pole and you are ready to install the ceiling hooks. Tool may also be used for attaching accessories with a male or female M6 thread, (Nut and screw not included). This assembly may also be used to remove hooks.

Hex shaped area is designed to fit a metric M6 hex nut or M6 hex head machine screw. **Note:** Insert nut or screw into installation tool before attaching to extension pole.
